SCHEDULED WINTER NATURAL GAS FILING APPROVED FOR ATMOS ENERGY CORPORATION

Jefferson City (October 30, 2001)---Butler District natural gas customers of Atmos Energy Corporation will see **lower natural gas rates** under a scheduled winter season filing approved by the Missouri Public Service Commission. This decrease, which primarily reflects a reduction in the wholesale cost of natural gas, takes effect November 1, 2001. The winter season filing covers the period of November through March.

A residential customer currently pays \$0.67077 per Ccf (100 cubic feet of gas). Under this filing, the rate will drop to \$0.25183 per Ccf, a decrease of approximately 41.9 cents per Ccf. **The effect on a typical residential heating customer for the winter season is a decrease of \$372 or 47 percent when compared to rates currently in effect.**

Approximately 60% to 70% of a customer's natural gas bill reflects the cost of natural gas from wholesale suppliers. The wholesale cost of natural gas (the cost your local natural gas company must pay to its suppliers for natural gas) is not regulated by the Missouri Public Service Commission. The wellhead cost of natural gas is unregulated and is primarily driven by supply and demand. The Missouri Public Service Commission does have regulatory review authority to ensure that regulated gas companies make prudent decisions in securing natural gas supplies for their customers.

Atmos Energy Corporation serves approximately 3,900 Butler District natural gas customers in Bates, Cass, Henry and St. Clair.
